

ESCALADE BR ALFALFA

QUICK OVERVIEW

- High Forage Yield
- Branch Root
- 35/35 Disease Resistance Index
- Flexible Cutting Schedule (3 – 4 Cuts)
- Winter Hardy

ADAPTATION

Escalade BR is a branch rooted alfalfa that is adapted for high yields in both wet and well-drained soil conditions. Excellent disease resistance contributes to a long stand life. This variety has outstanding genetic disease resistance, including high resistance to multiple strains of *Aphanomyces* Race 1 and Race 2 root rot. Blend Escalade BR with TH2 for a mix of alfalfas suitable for variable soil conditions and in combination with grasses for excellent hay or haylage.

FEATURES

ROOT TYPE	BRANCH	FUSARIUM WILT	HR
WINTER SURVIVAL INDEX	1.9	PHYTOPHTHORA ROOT ROT	HR
FALL DORMANCY	4.0	ANTHRACNOSE (RACE 1)	HR
BACTERIAL WILT	HR	ANTHRACNOSE (RACE 2)	HR
VERTICILLIUM WILT	HR	APHANOMYCES (RACE 1 & 2)	HR

HR – Highly Resistant
