

ReCover BASE

Hydraulic Erosion Control Mulch

An Innovative Blend of Fibres for Light to Moderate Applications

Plantae ReCover Base is a unique blend of fibres that provides the attributes of both straw and wood into a single, easily installed erosion control mulch.

Manufactured with cereal straw and wood fibres

Erosion Protection: ReCover Base is an economical landscape mulch product providing effective erosion control for light to moderate applications.

Blended Fibre Mulch: Provides the benefits of both straw and wood fibres in one package.

Application

Plantae ReCover Base application rates will vary according to project conditions. Reference the general guidelines.

- Hydraulically applied with standard hydroseeding equipment.
- Surface preparation as per grading specifications. Apply product to designed, engineered slopes that have diversion runoff away from slope face.
- Complies with equipment manufacturer's installation instructions and recommendations. Use approved hydroseeding equipment with fan-type nozzles.
- Apply product from multiple directions to achieve optimal coverage.

KEY FEATURES

Easily installed, blended mulch

High loading capacity / less water

Integrates with soil particles

100% Natural - No Dye added

Economical formula for everyday use

PACKING AND SHIPPING

**50 lb / 22.7 kg bags
40 bags per pallet**

GENERAL GUIDELINES

| | | |
|------------|-------------|-------------|
| < 4:1 | 2,000 lb/ac | 2,250 kg/ha |
| 4:1 to 3:1 | 2,500 lb/ac | 2,800 kg/ha |
| > 3:1 | 3,000 lb/ac | 3,400 kg/ha |
