

ReCoverTM BASE PLUS

Hydraulic Erosion Control Mulch

An Innovative Blend of Fibres and plant-based tackifier for Light to Moderate Applications

Plantae ReCover Base Plus is a unique blend of fibres and plant-based tackifier that provides the attributes of both straw, hemp and wood into a single, easily installed erosion control mulch.

Manufactured with cereal straw, hemp, and wood fibres

Erosion Protection: ReCover Base Plus is an economical erosion control mulch product providing effective erosion control for light to moderate applications.

Vegetation Protection: ReCover Base Plus contours closely to the soil surface, creating micro-environments for seedlings to establish. ReCover Base Plus also acts like a moisture shield and will help slow water loss from soil, greatly enhancing the chance of plant establishment.

Application

Plantae ReCover Base Plus application rates will vary according to project conditions. Reference the general guidelines.

- Hydraulically applied with standard hydroseeding equipment.
- Surface preparation as per grading specifications. Apply product to designed, engineered slopes that have diversion runoff away from slope face.
- Complies with equipment manufacturer's installation instructions and recommendations. Use approved hydroseeding equipment with fan-type nozzles.

KEY FEATURES

- 3% Plant-based Tackifier**
- Remains Strong in Wet Conditions**
- High Water Use Efficiency**
- Integrates with Soil Particles**
- 100% Natural - No Dye added**
- Low C:N Ratio**

PACKING AND SHIPPING

50 lb / 22.7 kg bags
40 bags per pallet

GENERAL GUIDELINES

Mix Rate (70 US gal per 50 lb bag)

< 4:1	2,000 lb/ac	2,250 kg/ha
4:1 to 3:1	2,500 lb/ac	2,800 kg/ha
> 3:1	3,000 lb/ac	3,400 kg/ha
